

****SUBJECTIVE:****

- * Patient reports not feeling well.
- * Complains of throat pain ("My throat is being hurt," "It feels like hurting My throat").

****ASSESSMENT:****

- * Acute Pharyngitis
- * Rule out Upper Respiratory Infection (URI)

****PLAN:****

- * Physical exam focusing on throat, cervical lymph nodes.
- * Recommend symptomatic relief: warm fluids, throat lozenges, OTC analgesics (e.g., acetaminophen/ibuprofen).
- * Consider rapid strep test based on clinical findings.
- * Advise on return precautions for worsening or new symptoms.
